

# Dash™

Enhancing your SharePoint® experience.

eThORITY® Dash™ "Briefing Mode" interface

eThORITY® Dash™ in Microsoft SharePoint® Server 2010

## Advanced Visualizations

Go from spectator to participant. The eThORITY® "user-obvious" GUI delivers an interactive experience with top notch visualizations that make it easy for users of all skill levels to get involved.

## Drill-Down Capability\*

Drill down to transaction level detail for greater discovery and insight.

## Run-Time Editing

Make and publish changes instantly in your dashboard.

## Briefing Mode

Design multiple layouts and create a presentation with your dashboard. Bring your dashboard elements to life and share them with your stakeholders.

## DashTutor

Add notes or audio to graphics in your dashboard to provide context around your visualizations.

## Integrated Security

Create one dashboard for a wide audience and the eThORITY Dash™ security automatically restricts what data users can see, eliminating compliance worries.

## Metric Alerts

Use the Dash alert system to create both static thresholds and formula based alert systems. You'll never miss critical notifications again.

## Interactive What-If Scenarios

Utilize what-if variables to affect the data presented in the dashboard in real time.

## Predictive Analytics\*

Using AnswerBridge™, the eThORITY Enterprise predictive analytics module, users can insert a Predictor Panel into their dashboards, enabling viewers to utilize predictive analytics for their specific needs. Your very own crystal ball.
